It is supposed that just before his jaunt he gave out a contract for so much heat, and that the contractors, like all others of the same species, are holding on as long as they can. When the aforesaid Clerk reaches his office scain he will have a sweet account to settle for so much surplus warmth. He can't grumble, though, that the contractors have not come up to the terms of their agreements. They have toed the chalk squarely, and have furnished the hottest kind of hot weather. Why, the streets are like furnaces.

THE CHILD MURDER .- Several arrests were made during yesterday and last evening of parties who answered the description of the flend who committed the diabolical murder of the child Mary Mohrmann, in the Nineteenth Ward. It was asserted this morning that the right individual had been captured last night. Determined to ascertain what there was in the rumor, one of our reporters repaired to the neighborhood this morning. On visiting the Nineteenth Ward Station House, the Lieu tenant informed him that although he had several persons locked up on suspicion, there was no possible or even probable proof that any of them was the right man. Twelve men are still detailed from his district, with instructions to use every means to discover the villain, and to follow up every clue. In addition to these officers, a number of the detective force are others, a number of the detective force are also upon the ground. A watchful surveillance is kept upon every suspicious character, and many ears are constantly alert to catch the slightest whisper that might lead to the murderer's detection. The whole neighborhood for squares around is still excited. Every man, woman, and child can tell you all the circymstances of the heinous affair every man, woman, and child appears anxious to aid the officers in their work. FIGHTERS OVERHAULED .- Last night John Fitzwater and Henry Meezer indulged in a fight at Ninth and Jayne streets. Reserves Kending Ferguson went to the scene, when the poglitatic gentlemen ran into a tavern. The policemen stowed themselves away behind some trees, and in a few minutes the fighters reap-peared and tuesled away until both dropped into the gutter. About this time the policemen col-lared them and locked them up. This morning Alderman Beitler held them for trial.

LARCENY OF CLOTH .- This morning Detective Levy arrested John M. Everest at a lager beer saloon, at Third and Gaskill streets, on the charge of stealing a piece of cloth, the property of Lewis, Boardman & Co., Nos. 238 and 240 Chesnut street. The contest waged between the friends of the various nominees is an earnest one and is now the absorbing topic with the "fire laddies." The friends of Messrs, McCusker and Downey are as busy as bees, working night and day in behalf of their favorite candidates. Mr. Mc-Cusker, the present Chief, has instituted various reforms of an excellent character in the management of the Department at fires. By this course he has excited the opposition of the rougher class of the members of the De-partment, who are working earnestly and ener-cetically against him.

getically against him.
Mr. Downey enjoys considerable popularity, and is being strongly urged for the position by a large number of friends. The result of the contest will be announced on next Tuesday

evening. LINCOLN COMPANY IN LIBERIA .- Interesting letters have been received from the Lincoln Company, made up chiefly of colored soldiers, who went from Philadelphia to Liberia about two years ago. The leader, Captain Charles A. Harrel, writes, July 22:—"The Company are all quite well, and enjoying good health. I think the lands about our settlement will yield one hundred bushels per acre. The Government has given us a fine square for the church and schoolhouse. The lot is on the corner of Mears and Price streets. The square will be called "Cooke square—(after the distinguished Philadelphian, Jay Cooke, Esq.) I will commence building, as soon as the rainy season is over, on the head of Malcom avenue. I could sell any amount of goods for camwood, palm oil, coffee, etc. The Golconda has just arrived with 280 emigrants for Grand Bussa. The Lord has been gracious to us. The emigrants are getting along very finely." The writer (sent over a beautiful speci-men of arrowroot, of which a large quantity can be readily raised.

Youthful Thieves .- For some time the farmers in the South Second street market have been annoyed by petty thefts which have been committed by a party of youths. He will have a hearing this afternoon.

FINANCIAL ITEMS.

Foreign balaices represent so much gold and exchange, but without currency, or its representative, they cannot be loaned out here. The monetary ease at this centre and eisewhere is due to domestic causes and if there was no foreign capital seeking employment here the condition of affairs would be about the same. Foremost among these causes is the fact that surrency contraction has been so long suspended that the business of the country has become adjusted to its volume, and hence confidence in the stability of values, so far as the latter are luftuenced by the circulation, is restored, and the correct perfectly to bank draits, certificates of deposit, checks and other forms of currency than would be the case under opposite chromatances. While contraction was going forward legal tender noets to a large amount in the aggregate were hoarded, under the delinive idea that paper money and gold would rapidly approximate to value, and that as all kinds of properties, including securities, would decline as gold approached par there was nothing so safe to hold as greenbacks. The people have fortunately recovered from this depression, which had its remote origin in Mr. McCulloch's Fort Wayne succeil, and the frade of the country is now more healthy and conducted on a more conservative bas's than at any time since the commenceme -The New York Herald of this morning says:-

Military Trial Granted to General Dyer-President Johnson to Order Federal Troops to Tennessee-Sherman to Punish the Indians.

The Political Situation in the Southwest.

Etc., Etc., Etc., Etc., Etc., Etc.

FROM WASHINGTON. A Trial Granted to General Dyer.

Special Despatch to The Evening Telegraph. Washington, Sept. 12.-Special Order, No. 217, just assued from the War Department, says: -"By direction of the President the United States Court of Inquiry is hereby appointed to examine into the nature of the transactions of Brigadler and Brevet Major-General A. B. Dyer, Chief of Ordnance, and the accusations against that officer contained in the report of a select committee on ordnance of the Senate and House of Representatives, submitted to the Senate on the 17th of July, 1868. The Court will make a full and thorough investigation of all the matters embraced in said report of the select committee, and will report the facts developed by the investigation, and give their opinion thereon in detail for the Court, to be composed of Major-General George H. Thomas, Major-General W. S. Hencock, General A. H. Terry. General J. Holt, Judge Advocate-General United States Army, will act as Judge Advocate of the Court. The Court will sit in Washington on the first Monday in October."

The Indians to be Punished. Despatches have been received at the army headquarters here, from General W. T. Sherman, asking for an additional supply of cavalry, to be used against Indians on the plains. The 5th Regiment Cavalry has been ordered to report to General Sherman, at Omaha, Nebraska, and will immediately start for that rendezvous. The demand for additional cavalry is regarded here as an evidence of the determination upon the part of General Sherman to punish the savages for their recent outrages.

The Committee of the Tennessee Legis-lature Had another interview with the President today at 1 o'clock, It was very brief, nothing remaining to be done but to receive the President's answer to the petition presented yester day. The President told them he had come to the conclusion to comply with the request of the Tennessee Legislature, and had prepared an order which he would forward at once to General Thomas, instructing him to send a sufficient force of United States troops into Tennessee to preserve order and assist the civil authorities in executing the laws.

General Thomas is to call upon the Secretary of War for whatever additional force may be necessary to carry out this order, and it is to be furnished at once. President Johnson told the committee it was his intention to sustain the present State Government of Tennessee against all opposition. This will be sad news to the .Klux. They have been boasting all the time, members of the committee say, that Johnson would sustain them against Brownlow's government.

FROM TENNESSEE.

Conflict Between Negroes and Ku-Klux. Special Despatch to The Evening Telegraph.

NASHVILLE, Tenn., Sept. 12 .- A bloody tragedy occurred near Millville, Lincoln county, on Thursday night, by which a KuKlux was killed. From the accounts which have reached here it appears that four or five negroes, who kept a grocery, had boasted that the first Ku-Klux who came near their establishment should be killed. Apparently anticipating an attack, they barricaded the premises, port-holed the upper story, and secured quite a supply of ammunition. As the report has it, a body of twelve Ku-Klux, some of them armed, visited the negroes for the purpose of ascertaining what all the ostentation meant. One of them, named High, was killed; the others are reported to have escaped. There was great excitement at last accounts.

Political Excitement-Fears of Armed Mobs-Progress of Registration. Special Despatch to The Evening Telegraph.

Sr. Louis, Sept. 12. - The political excitement continues unabated. Startling developments are hourly expected in connection with the subject of arming. It is said an attempt will be made to-night to selze a large quantity of arms stored here.

The September Session of Congress-A Second Recess Proposed.

Etc., Etc., Etc., Etc., Etc., Etc.,

FROM WASHINGTON.

The September Session of Congress Special Despatch to The Evening Telegraph.

WASHINGTON, Sept. 12 .- It seems evident at this time that a quorum of Congress will assemble on the 21st instant. The subject is being carnestly discussed, and it is thought and gene raily believed now that Congress will reassemble at that time, and take a recess to some day in November just after the Presidential election, This is the view taken by Senator Morgan, Gov. erner Boutwell, Mr. Schenck and others. They hold that nothing has occurred so far to warrant congressional legislation, but that at the meeting on the 21st, and before the anticipated recess, such measures will be adepted as to provide for the reassembling of Congress at any moment. This is a precaution against any overt acts of rasbness that the President may contemplate or perform.

Progress of the Western Railroads. The Secretary of the Treasury to-day issued \$1,280,000 worth of bonds to the Central Pacific Railroad, having received a certificate that the Company has completed an additional forty miles of the road, commencing at the 215th mile post, and ending at the 255th east of Sacramento.
